Flock Red-X Private Remote Sensing License: Public Summary

On October 11, 2017, the Commercial Remote Sensing Regulatory Affairs Office of the National Oceanic and Atmospheric Administration, an agency of the Department of Commerce, granted a license to Planet Labs Inc. to operate a private, commercial, space-based, remote sensing system named Flock Red-X consisting of a launch of up to four satellites. These satellites are licensed to collect 6.4m resolution imagery of the Earth at an altitude of approximately 500km and an inclination of 97.4-degrees.
